

**MYA Scottish District  
2019 AGM – 10:00, 26<sup>th</sup> October 2019  
Royal Tay Yacht Club, Dundee**

**Agenda**

- 1) Apologies (all)**
- 2) Confirm [minutes of 2018 MYA-SD AGM](#) (all)**
- 3) Reports by MYA-SD Committee Officials for 2019 – as read**
- 4) Reports by MYA-SD Clubs for 2019 – as read**
- 5) Draft MYA-SD racing programme for 2020 season - presented by Brian Summers**
  - a) Including a brief overview of training event provision
- 6) Election of MYA-SD Officers for 2020**
- 7) Matters arising from the 2018 minutes (all)**
  - a) District Councillor's Report - Addition of a news section to Scottish District website**
    - i) Has a section which allows clubs to post news on been added? If not, is this still needed/wanted/feasible?
  - b) Racing programme**
    - i) List of resources available to clubs when holding MYA SD events to be posted on SD website. Has this been done?
    - ii) Richard Ennos was to discuss with the MYA the possibility of a RYA race official attending MYA national events in 2019 - what was the outcome of the discussion and has a RYA official attended any 2019 MYA events?
  - c) Attracting new members**
    - i) Have any clubs any ideas from this year's experiences? Buchanness, has the Boys Brigade event resulted in any interest? Mid Argyll, how did you attract your members?
  - d) New sailing venues**
    - i) Have any been identified since the 2018 AGM?
  - e) Castle Semple lower walkway**
    - i) Richard Ennos was to investigate not using the lower walkway as a control area due to tripping incidents in the past – has this been resolved?
- 8) Any other competent business**

## **2019 SCOTTISH DISTRICT AGM**

### **REPORT FROM THE DISTRICT COUNCILLOR**

#### **Interface with MYA Council on behalf of the MYA-SD**

On behalf of the MYA-SD, I have submitted quarterly reports to MYA Council which have been published on the MYA-SD website (see "[District Committee](#)" tab). In addition, part of the role is to participate in regular "online meetings" to manage matters arising with fellow MYA Council. Finally, there are regular emails and Council forums to keep abreast of matters and ensure the MYA-SD is properly represented. Although I have not personally attended Council meetings, I have met with a number of MYA Council officers on several occasions to discuss matters of interest as well as had numerous telephone conversations.

It is noteworthy that the MYA-SD is well respected for its ability to self-organise. In addition, MYA-SD is a popular host for well organised sailing events. On this point, I would like to recognise Richard Ennos (PRO) and his race team for running the 2019 UK IOM Ranking Races 1 & 2 at Castle Semple in April. The feedback was excellent from the MYA Racing Officer and the GBR IOM Class Captain.

Following raising significant concerns regarding very late delivery of the 2018 MYA Yearbook, the 2019 MYA Handbook was successfully delivered on time. However, database issues came to light regarding Personal Sail Numbers (PSN). On behalf of MYA-SD skippers, these were raised with the new PSN Secretary and were promptly addressed.

It is hoped that during 2019, I have represented you (the MYA affiliated members and Clubs) in a timely manner addressing matters between MYA Council, its officers and yourselves as and when appropriate.

#### **MYA – MYA-SD funding**

Against the money the MYA sets aside for Districts, the MYA-SD Committee was approached by Greenock MY&PBC to help towards costs promoting MYA, MYA-SD and Greenock activities and membership at the 2019 Scottish Boat Show. Given this is aligned with MYA objectives, it was agreed to support this initiative and £200 was donated.

#### **MYA-SD website**

This year has seen the launch of the revised [MYA Scottish District website](#). The past efforts of Richard Rowan in maintaining access to documents regarding AGM minutes, race results, etc. have been recognised. These resources have been diligently preserved with the input and support of Austin Guerrier (MYA Digital Communications Officer) and David Ross (MYA Scottish District webmaster). My thanks go to all of them for the time and efforts that they contributed in making this non-trivial task such a success.

The new MYA-SD website employs the MYA "corporate branding" and has been "live" for much of 2019. David Ross continues to update the website when material is submitted and checked via the MYA-SD Committee. Thus, NOR's, event reports, results and photos, MYA-SD announcements, etc. are published when available. It is hoped that all skippers in the Scottish District access this excellent resource to keep abreast of news and events and review the useful material to support club and skipper activities.

## **New MYA-SD club – Mid Argyll Radio Sailing (MARS)**

Welcome to [Mid Argyll Radio Sailing!](#)

The club sails DF95's and RC Lasers on [Loch a' Bharain](#) by lock 9 of the Crinan Canal. Sailing takes place on Wednesdays and Saturdays from 2 pm. There are toilets nearby and handy car parking is also available. It is hoped that MARS club members will become actively involved in sailing events with other MYA-SD clubs and progress their skills in radio sailing event organisation.

## **MYA-SD affiliated members (as of September 2019)**

Following a gradual membership decline in recent years, this year, with the addition of MARS and growth of Carrickfergus, the MYA-affiliated membership of the Scottish District has grown to 145.

<b>MYA-SD Club</b>	<b>MYA affiliated members</b>
Aberdeen	5
Ayr	22
Buchanness	13
Carrickfergus	13
Greenock	10
Kinghorn	13
Levenhall	13
Mid Argyll	17
Paisley	9
Rhu	13
Tayside	17
<b>Total:</b>	<b>145</b>

## **MYA-SD Publicity – attracting new members**

A common topic of conversation at MYA Council level, MYA-SD events and MYA-SD AGM's has been declining membership and age distribution. A number of steps have been implemented to try to attract new members. These include a MYA stand at the RYA dinghy show and MYA banners and flags gifted to the different districts (including MYA-SD). In addition, "have a go" events have also been tried at District and Club levels as well as talks to local sailing clubs and other organisations.

Whilst this matter remains an active area for MYA Council, MYA-SD Clubs are asked to do what they can. In support of this, it is noteworthy that David Ross has taken the initiative to compile an A4 trifold [Scottish District Publicity Flyer](#) that is available via the MYA-SD website "Downloads" tab. Clubs are encouraged to download this and print/photocopy multiple copies for distribution at their club events.

## **MYA-SD Committee**

Behind the scenes, the 2019 MYA-SD Committee (Brian Summers, Steve Taylor and Cathy Reid) with support from our webmaster (David Ross), put in a lot of effort behind the scenes on behalf of the eleven clubs and their members in Scotland and Northern Ireland. I would like to thank them for their time and wise counsel.

John Owens

## **2019 SCOTTISH DISTRICT AGM**

### **SCOTTISH DISTRICT RACE SECRETARY REPORT**

During 2019 the Scottish District ran two IOM ranking events over the weekend of 6/7<sup>th</sup> April at Castle Semple attacking 40 entries from all parts of the UK. Race officer Richard Ennos and his race team split the racing into 3 fleets competing 6 races on each day. Full results can be found on the IOM website.

Three traveller's events were held at Greenock on the 9<sup>th</sup> March, Buchanness on the 10<sup>th</sup> August and Forfar Loch on 5<sup>th</sup> October with a different winner from each venue. A total of 23 skippers from 7 of the Scottish clubs took part with Ian Dundas from Aberdeen running out the overall winner.

Kinghorn RSC ran an IOM wooden hulled open meeting on the 6<sup>th</sup> July and the Scottish IOM wooden hull championship on the 14<sup>th</sup> September. Both events attracted a good entry showing that interest in self built wooded radio yachts is still healthy in the Scottish District.

Members from the Scottish District again gave a good account of themselves in the IOM class at the nation championship at Eastbourne and at national ranking events with Steve Taylor winning ranking event 3 held at Falmouth on the 8<sup>th</sup> of June.

Our newest club to the district Mid Argyll Radio Sailing held an open meeting on the 24<sup>th</sup> August for DF95s and Lasers attacking a very creditable 22 skippers from Ayr, Paisley, Rhu, Greenock and Preston as well as their own members.

Brian Summers

RO	Race Official scores average from other events sailed in.
	Tied ranking positions - resolved in favour of highest number of events sailed, then best finishing position in any of those events.

Thanks are due to the following non-participating Race Officials

### Event

Greenock - Richard Rowan, David Smith, Ian Davidson, John Mason, Bill Terry, Ken McIntosh

Buchanness - Ali Law, Bill Odger, Cathy Reid, George Wallace

Tayside - Ali Law, Bill Odger, Boyd Baird, Ken McIntosh, Murphy ?, Keith Furnace

## **2019 SCOTTISH DISTRICT AGM**

### **REPORT FROM DISTRICT SENIOR MEASURER**

On the technical side not a lot has happened particularly on the IOM front.

The main issue this year is around measurer competence, we are certainly moving to a place where some kind of coaching and hands on instruction is going to be part of the future approval process.

I have been quite vocal on this issue that it must be kept simple, presentation slides a train the trainer methodology rather than swathes of measures travelling across the country to attend specific RYA courses! Additionally I've tried to push the idea of sail maker self-certification although there appears a reluctance to go this route by the sail makers.

The MYA Scottish District is lucky that we don't sail the "A" class, 10R & Marblehead where technically, interpretation and measurement are challenging and where measurement competence has been exposed.

Going forward it will not be a case of recommending a person to be a club measurer and job done, there will have to be some instruction and support to pass on the necessary competences.

From an IOM perspective, I put together some slides not only as a reference, but to help guide the first time measurer through the process. At this point I must congratulate Nick Slane, who went through this process earlier this year together with a hands on measurement of three IOM's at Kinghorn. Having completed this I was then able to get the Technical Officer to sign off on Nick's competence.

The feedback I received from Nick and others has been good in that we do need something that leads you through the process and hopefully the slide pack together with a basic hands on instruction will ensure an accurate and consistent process.

If anyone is interested to become a measure please don't hesitate to give me a call.

Finally as we run into the MYA AGM we will find out the new Technical Officer that will take us forward.

Steve Taylor

## **2019 SCOTTISH DISTRICT AGM**

### **ABERDEEN MODEL YACHT CLUB**

In 2019 Aberdeen Club has a stable membership of five.

The club is still without a "home water" since leaving Knockburn Loch in 2017. As a result, members travel regularly to sail at the neighboring clubs of Buchanness and Tayside.

Construction and Racing of Wooden IOM boats is popular by all club members.

Despite its small size the club is very active with members holding positions in the Scottish District Committee as well as actively participating in District and UK National IOM events. Club member Steve Taylor excelled with his win at the West Cornwall IOM Ranking event. The club is currently ranked 7<sup>th</sup> in the UK Club Ranking List for the IOM class.

Ian Dundas

## **2019 SCOTTISH DISTRICT AGM**

### **AYR BAY RADIO YACHT CLUB**

The club has very little to report this year as the Beach Park Pond, Irvine has been full of weed since mid-May until hopefully end of October.

We sailed only Lasers over the winter series and raced most Tuesday's afternoons and Sunday mornings with an average 8 boats racing, but on a good day we had 12 boats racing,

We have found 3 potential new summer venues which will be discussed at our AGM on Sunday 17<sup>th</sup> November and one will be selected for 2020 allowing the club to sail all year.

IOM's and DF95's have not been sailed by ABRYC due to lack of interest and Lasers have been found to be more popular.

We plan to hold the IOM Travellers on Saturday 21<sup>st</sup> March 2020 and the Scottish Laser Championship on Sunday 29<sup>th</sup> March 2020,

Bill Lees

## **2019 SCOTTISH DISTRICT AGM**

### **BUCHANNESS RADIO YACHT CLUB**

The 2018/19 year for the club has generally remained as was.

We have concentrated on keeping the water and surrounding areas in as good a condition as possible with us always being on the lookout for facilities to improve the overall sailing experience. The new lawn mower provided by John Moir has helped a great deal. To this end, a newly opened café has opened at the golf driving range just down the road which, hopefully, we can support and utilise for general sailing days and more organised events.

As a club we held the MYA-SD Travellers 2 in August with a fleet of twelve IOM's on the water. Despite variable conditions a good days sailing was had.

Member numbers remain about the same with interest in both IOM's and DF65's. The Fifie class remains active but weather conditions over the year has meant fewer sailing nights at the Den Dam

Last winter saw the first time in a long period that the pond froze over, but in general the sailing days have not been interrupted though numbers at the waterside do vary depending on the water content in the air!!

## **2019 SCOTTISH DISTRICT AGM**

### **CARRICKFERGUS MODEL BOAT CLUB**

We started the season's events calendar with a dinner at the Golf Club Restaurant as in previous years with a full turnout in February. The Club has managed to expand to twelve members but on most Saturday outings we manage about six members. The membership races most Saturday's (weather permitting) in the harbour.

I am afraid there is not much enthusiasm for traveling to District Events due to travel costs and the timing of the ferries making for an additional cost of an extra night's stay in most cases.

We have tried to contact other model sailors in Ireland with no response and are at present looking at setting up a website next year in addition to our Facebook.

We organised our yearly regatta in July, in conjunction with the Carrickfergus Sailing Club. Eight members took part with quite a few spectators followed by an enjoyable evening with a meal in the Club House. Our late Commodore's wife presented a wonderful silver cup to be competed for at the regatta event. We are hoping to attract new members. We also provided a demonstration at Antrim sailing club in August, again to promote the Club.

Roy Younger

## **2019 SCOTTISH DISTRICT AGM**

### **GREENOCK MY&PBC**

We now have ten members in the Model Yacht Section although on average we usually only get around 4 or 5 on a club day.

We hosted the MYA-SD Travellers 1 Series on 9th March 2019 which was won by Ian Dundas. Also the Scotts of Greenock Trophy on 8th May 2019 which was won by John Taylor.

Our biggest problem in hosting races is finding enough members able to help run these competitions due to our membership being so low. Unfortunately age is catching up with many of our members. Without the help of a few members of Paisley Club we would not have been able to run these events. We had the opportunity to host the DF95 National Competition at Largs Marina but were unable to go ahead with this due to lack of personnel as it was to be a sixty boat fleet and held over four days.

To try and attract new members we had a stand at the Flotilla Day at the James Watt Dock Marina on 10th August 2019. We had boats on display and also two sailing in in the dock. Members of the public had the opportunity to try sailing them. We gained two new members from this venture although they have not attended regularly so far.

We are going to have a stand at the Scottish Boat Show at Kip Marina at Inverkip on 11-13th October to try and encourage people to take up sailing model yachts. This is to advertise model yacht clubs all over Scotland, not just our own. To publicise this we have revamped our club website and also have an advertisement about the stand at the Boat Show on [inverclydenow.com](http://inverclydenow.com) which gives information about the club for interested members of the public. We would like to thank the MYA and Scottish District Committee for part funding the preparations for the stand at the Boat Show.

Greenock, Paisley and Ayr Clubs were invited by Mid Argyll Club to a friendly race at Lock 9 on the Crinan Canal. DF95s and Lasers were raced and a good day was had by all. We have extended an invitation to Mid Argyll to come and have a return day with us at Greenock.

A lot of our members now have DF95s so we sail them on a Tuesday and IOMs on a Sunday.

Ian C Davidson

---

## **2019 SCOTTISH DISTRICT AGM**

### **KINGHORN RADIO SAILING CLUB**

#### **The Club**

The Club continues to make progress although sometimes it seems a bit slow. Alan Court has joined the committee as chairman and Nick Slane is now confirmed as the Club Measurer and the member who singlehandedly ensures the club Facebook page has a life.

Membership of the club has remained the same as last year. Twenty members (15 full, 4 associate, and 1 social) some members moving on, and being replaced by new faces. Club finances, indicate a reasonable level of solvency but that has depended upon a sailing levy and it is decided to rationalise this for next year by increasing the membership fees. Following a club house building status report and a more detailed lease agreement the existing rolling lease was extended for a further year with the new Craigencaht owners (2Sky). Club house renovation continues to make progress with a new electric system, storage facility, basic furnishing and a bit of a front garden tidy. Still more to do.

There has been little activity concerning the loch with the Users Group. The plans to improve the pier are still in place, and the repair to the sluice, which requires the loch water level to be reduced, is behind schedule due to the excessive water inflow to the loch.

#### **Sailing**

Throughout 2019 the loch conditions have been good. The weed has been controlled by cutting (it appears the time of cutting is crucial) thus had little impact on our sailing. Only adverse weather has reduced the number of days sailed. We might be becoming a bit fair weathered sailors.

- Saturday's continues to be our main sailing day but Wednesdays have had some very good turnouts.
- Saturdays we sailed on forty occasions, about the same as last year, with a max of eleven, and minimum of four boats on the water, averaging at 7.4 boats.
- Wednesdays we sailed on 33 days with a maximum of nine, and a minimum of three boats, the average being 5.2
- Our Open day for Woody IOM's was again a success and will continue next year although the format for the event is being looked at by the committee.

We again welcomed the Scottish District Wooden Hull Championship when a fine fleet of thirteen beautiful boats was reduced to nine at the close of day because of the hard sailing at the top end of # 2 rig. A super days sailing was enjoyed by skippers and admired by spectators. A great advert for wooden boats.

The club has also been pleased to support the 'SD Travellers' events with an average of three skippers competing and hopefully will improve this in 2020.

Sandy Mackay

## **2019 SCOTTISH DISTRICT AGM**

### **LEVENHALL RADIO YACHT CLUB**

Current membership of the club stands at nineteen with one non-sailing member. Four members of the Royal Forth Yacht Club joined the club and sailed DF65s over the winter period. The club has raced every Saturday when the condition of the pond have permitted with average attendances of five or six skippers. IOMs are sailed on most Saturdays, but the last Saturday of each month is reserved for DF65s. Lindsay Odie, who has taken over as racing secretary, has completed an entirely home built Alternative, while David Northridge has purchased a very fast Lintel from Dave Potter after seeing it perform at the IOM Ranking races.

Racing over the winter months was very good with an occasional interruption due to ice on the pond. However, weed problems appeared in early June and prevented any further serious racing during the summer. Despite being cut in early July the weed was not removed from the pond and we are still waiting for the weed to clear to allow sailing to resume. This pattern of a lack of racing during the summer months at Levenhall now seems to be fixed and we will need to adapt to find alternative sailing venues from June to November.

The state of the road leading to Levenhall was very poor over the winter period but this has now been rectified. Nothing has been heard about the consultation undertaken by East Lothian Council on possible development of the pond and the provision of basic facilities.

The club was responsible for running the UK IOM Ranking Races 1 & 2 over the weekend of 6<sup>th</sup> and 7<sup>th</sup> April in which 39 skippers took part. A successful social event was also organised at the Uplawmoor Hotel on the Saturday evening. The Ranking Races were won by Rob Walsh and Peter Stollery.

Richard Ennos

## **2019 SCOTTISH DISTRICT AGM**

### **MID ARGYLL RADIO SAILING (MARS)**

MARS joined MYA Scottish District earlier this year after we gathered together the mandatory six members. Scottish Canals agreed to us using Loch a Bharain. To start us of they also agreed to lend us a pontoon that can be used to launch the yachts from.

We now have four Committee members to help manage the new club, John Rushton Treasurer/ Membership Secretary, Alan Sinclair Technical Officer, Laurie Nye Promotional Officer ie website, Facebook/ yacht Procurement. Myself as Chairman & Acting Secretary. We still need a Sailing Secretary and Admin Secretary.

We decided it was important to strengthen the pontoon, now done, state our Constitution policy, Data Protection Policy, Health & Safety Policy. These will be advertised on our website after being approved at our AGM.

We now have twenty Members, renewal subscription are due out shortly, we expect one or two not to renew. Our target by the end of 2020 is thirty.

We needed to test ourselves to determine our strengths and weaknesses. So we decided to invite Ayr Bay Radio Yacht Club to a friendly Open meeting on 24th August 2019. To our surprise Bill Lees offered and we accepted that Bill organise the Event. We are most grateful for his help.

Brian Summers Sailing Secretary has suggested MARS host two events next year:

- 20th of June 2020 is the RCLaser National Championship.
- 25th July 2020 is the DF95 Open TT Meeting

An area of deep concern is not having waterside parking for Skippers. We have land adjacent to the Loch that can be used for this purpose but need permission from Scottish Canals, Forestry Commission and Historic Scotland. The canal is an ancient monument. Letters have been received from MYA, Laser and one of our members who has been making RC model boats for over fifty years.

May I suggest that once a new club joins, you issue a book of what is expected from our perspective? Committee Officer meets New Club Committee.

David Bowen

## **2019 SCOTTISH DISTRICT AGM**

### **PAISLEY MYC**

**The key message of this report is virtually the same as last year's - there has been no sailing at Barshaw Park, Paisley, since early March 2017.**

Renfrewshire Council's 2017 landscaping project left the pond full of weed and the banks, inside the new coping, in a poor state of repair when the contractor finished. Despite (or perhaps because of!) approaching councillors to have the pond cleaned up, no effective work has yet been done to return the pond to sailing condition. Although a 'weed boat' visited for two days in July 2018 the effects were largely aesthetic and so much weed remained below the surface that sailing was still impossible. The weed disappeared of its own accord in February 2019 and some club sailing resumed. However as expected the weed had returned by June and sailing was suspended. The weed boat returned in July 2019 and once again removed large quantities of weed but sailing was still impossible.

Our Commodore, Robert Rooney, has been unrelenting in his efforts to recover the situation, engaging in discussion with Councillors, including the Leader of the Council, Council officials, Friends of Barshaw Park and sundry regulators. Other users of the Park have raised their concern over the state of the pond in the pages of the Paisley Daily Express - all, at the time of writing, to no avail.

Our hopes were raised in March when Renfrewshire Council announced that £100,000 had been allocated in the 2019-20 Budget to restore the pond for model yachting. We naively assumed that since a defined pot of money had been identified a firm plan for its spending also existed. The plan continues under development.

During the season Paisley members supported most of the events in the District Calendar. Robert Rooney sailed in IOM events at Greenock (T1 & Scotts) & Kinghorn (Open & Woodies). David Smith sailed in IOM events at Buchanness (T2/SD Championship) & Kinghorn (Woodies) and scored at Castle Semple & Greenock (T1 & Scotts).

The number of members of Paisley MYC remains small, the active number even smaller, and their average age remains high. Despite the lack of visibility in terms of sailing at our home water we recruited two brand new members this year and two visitors from other clubs.

A small group of members visit Greenock to sail IOM's and another small group regularly visited Ayr Bay at Irvine with RC Lasers - until the pond in the Beach Park was rapidly overwhelmed by weed in May.

The Knightswood Model Boat Club who build & sail mainly scale models at Knightswood Pond in Glasgow, just north of the Clyde, were happy to let us sail on Wednesday afternoons. We started sailing IOM's but prompted by one of our new members and developments at Greenock we have moved into DragonFlite 95's. The pond is a not ideal for 'serious' racing but we are enjoying good turn-outs and close racing with the remarkably speedy DF95's.

David L Smith

## **2019 SCOTTISH DISTRICT AGM**

### **RHU RADIO LASERS**

The club continues to sail in Rhu Marina every Thursday from 1.30 to 3.30 pm, all year round.

Membership continues to grow with thirteen Laser owners and average turnouts of six. These usually increase in winter when big boat sailing finishes.

Racing is very informal but still competitive and most members enjoy a coffee and chat in *Cafe Rhu* after racing.

Visitors are welcome but should observe our local rule to wear a lifejacket (fully tested by the Sec. this year!).

Iain Duncan

## **2019 SCOTTISH DISTRICT AGM**

### **TAYSIDE RADIO SAILING CLUB**

Tayside Radio Sailing Club continues to be base at Forfar Loch enjoying an affiliation arrangement with Forfar Sailing Club which gives access to toilets, changing rooms and gear storage. We lost a few members this year but also added five new ones so numbers are slightly increased at twenty-five.

This year we hosted a Scottish District training day in the spring and MYA-SD IOM Travellers 3 in the autumn. Forfar Sailing Club again opened up their main clubrooms and provided coffee, bacon rolls, soup and cakes throughout the Travellers 3 day making a great difference to the overall enjoyment of the event.

We are sailing every Wednesday afternoons and one Saturday per month. In previous years attendance has tended to drop off through the summer months as members pursuing other interests but with our new members the numbers have held up well this year. We did introduce the DragonFlite 95 class over the last couple of years with a thought this simpler boat might appeal to new members but the IOMs continue to be the backbone of the club giving close competitive racing.

The water level in the loch had risen by about 1m in the summer months due to more rain than usual and the waterway to the west becoming overgrown. In the last few weeks however farmers have cleared the Dean Water lowering the level of the loch to less than has been seen for some years. What this will do to weed growth next season remains to be seen.

Tich Summers
